The Attempted Assassination of the Emperor Napoleon.—Letter from an Eye Witness.

The following extract of a letter from a gentleman in Paris to a friend in this city will be interesting to our readers, as giving a summary account from an eye witness of the bold and nearly successful attempt upon the life of the Emperor—and also as a statement of the condition of public feeling in connection with the affair.

PARIS, January 19.

The all great absorbing topic in Paris in all circles is the attempt to assassinate the Emperor, of which you will receive, by this steamer, full newspaper accounts. The attempt failed, but, unfortunately, was the means of killing some fifteen persons, and wounding about 125 others.

I was walking upon the exact spot where it occurred, with two other Americans,—one of whom, being a stranger, wished to see the cortege of the Emperor and Empress on their way to the opera,—about three minutes before the attempt was made; and, had I followed the wishes of the gentlemen with whom I was, might have been myself a victim. Hearing the explosion of the grenades, or bombs, we turned and mixed with the crowd, and saw several poor fellows carried off, wounded, besides several women and children.

The plan of the conspirators was as follows, as near as can be ascertained: There being some twenty engaged in the plot—all Italians—they were each furnished with three hand grenades, made of glass, and filled with a fulminating powder about ten times the force of common gunpowder, which, being thrown upon the pavement, would explode and destroy everything within reach. As there is always a great crowd collected on such occasions, they mingled with the crowd in a short street close to the opera, where the Emperor was obliged to pass, and upon a given signal each man was to throw his grenade at the Emperor's carriage as it passed. The chief conspirator, fortunately, was recognized by an officer of the police, only fifteen minutes before the carriage was to pass, as an individual who was sent out of the country some years before as opposed to the government, and arrested. It was he who was to give the signal by throwing the first grenade. He being arrested, the signal was not given, so the Emperor's carriage advanced close to the opera house, when the very last villain of the whole series threw his three grenades, which caused so much destruction.

Had the signal been given as was their intention, and all the grenades exploded, the loss of life must have been terrible in such a crowded, narrow street. Fortunately neither the Emperor nor Empress was hurt, but only the escort of lancers and and some poor lookers on were the sufferers.

Had the attempt succeeded, and the Emperor been destroyed, God only knows what would have been the result here. The probability is that in less than a month barricades would have been erected all over Paris, as in 1848, and revolution and anarchy would have been the fearful order of things. From all parts of France and Europe addresses of congratulation for his escape are being constantly received by the Emperor.

When I first heard the explosion I thought three cannons were fired off, the reports were so loud, but the sudden rushing of the crowd at once convinced me of the actual state of affairs.

Some of the scoundrels have been arrested, two of whom were severely wounded by their own grenades, and will probably have their heads cut off in less than four weeks. They make short work of it in this country for such offences.

The feeling of indignation evinced by the community is beyond estimation. Thousands of Frenchmen, who are opposed to the Emperor as head of the nation, now lift up their voices in condemnation of the assassins. I have heard some say, who stood in the crowd to see him return from the opera, that they cried "Vive l' Empereur," not because they liked him, but as a protest against such attempts to destroy him, and the innocent victims who fell in consequence. Should you see the papers, they will state that on the Emperor's return from the opera at midnight, the crowd was very enthusiastic in their acclamations of joy at his safety. This is not true.—The crowd was very great, from curiosity and not from congratulation, and the cries of "Vive l' Empereur" very few and feeble, considering the occasion.

I do not know as you can get a very clear idea of how the affair occurred from my account, as I have written it very hurriedly, without any sort of arrangement in my own mind of what I was going to say or the order of saying it. It is the most terrible affair of the kind ever attempted, and apparently perfectly organized. The last great affair of this kind was the infernal machine of Fieschi, who attempted to assassinate Louis Phillipe, by which some 40 persons were killed outright. Had the present attempt been fully carried out, it would have destroyed the whole street, and killed hundreds. As it was, the buildings in the immediate vicinity showed evident traces of the explosion by the destruction of the windows, etc., on both sides. If three projectiles could have caused such damage, what would have been the result had they exploded the whole number—between fifty and sixty? It is fortunate for humanity that their projects did not succeed, otherwise civil war and revolution would probably have been the immediate result.

This nation requires a strong government,—better suited than any other to the requirements of its people. This attempt shows the instability of matters here should anything happen to the Emperor. Nearly all that I have heard mention their opinion, especially those who are established, and have anything to lose, shudder at the idea of what would have been the consequences, should it have succeeded.

France has been for the past three years more prosperous than ever, notwithstanding the Russian war, and a revolution now would have thrown matters back to where they were ten or fifteen years ago. Government is spending enormous amounts of money in making improvements in Paris, which is fast growing to be the most beautiful city in the world; it is so now in fact, but is destined to be vastly more so. One great object in these public works is to employ the thousands of citizens who, without work, must starve or be fed by the government.

WHAT A CONFESSION.—The Washington correspondent of the Journal of Commerce, who, of course, favors the Lecompton Constitution, and who apprehends from the contest now going on the most serious consequences, possibly even the disruption of the Union, makes the following strange confession:

"But it is in the power of Gen. Calhoun, who will be here to-morrow, to quiet the whole subject by giving certificates to the State officers and representatives in the Legislature, who were really elected.

What a confession! A question that profoundly agitates the country, that arrays the military against a large portion of the people, that threatens even the overthrow of the government, can all be settled by giving certificates to the State officers and representatives in the Legislature WHO WERE REALLY ELECTED."

New Publications.

We have received from CHARLES LOWELL, Esq., of Ellsworth, a copy of a pamphlet of 24 pages, containing nearly as much matter as any one of the monthly magazines, and with the following comprehensive title:

LOWELL'S CLIPPERS: Being a Live Magazine of useful and entertaining matter, interspersed with amusing anecdotes and striking illustrations;—among the leading papers are the following: Business in Ellsworth, a controversial pungent essay; Modern Spiritualism, as disclosed in Ellsworth; Woman's Comparative Qualities; The Fate of Genius; Advice to Poor Debtors; Make the Best of Everything; together with a most Eloquent and Thrilling Poem on the Sad Effects of Intemperance. By Charles Lowell, of the Hancock Bar. Ellsworth, Maine: February, 1858.

As will be seen from the title, Mr. Lowell has presented a great variety of matter in this pamphlet; and it is richly worth the moderate price at which it is offered. We think no one can read it without finding something to interest and amuse him, as well as more solid food for the understanding.

The pamphlet opens with an able summary of its contents, written by the author in his best vein. He says:

The principal papers of which this Magazine is composed, it will be seen, are from the pen of the Editor and Publisher, several of which, as we shall presently explain, have heretofore been published. It is not designed to make the work a regular periodical, but an occasional publication for the exposition of error, folly and vice, and the promotion of those sentiments and practices, which are calculated to elevate and ennoble mankind.

The article upon "Business in Ellsworth" is written with all the pungency which characterized the earlier efforts of the author, and will attract attention from those acquainted with that enterprising town.

The "Advice to Poor Debtors," composes the principal article, and is really a paper of much merit. The suggestions are of a very practical character, and well suited to the times. The advice is excellent, and if followed by the class addressed, will be fruitful of good results to themselves and the whole community.

Without further reference to the pamphlet, we desire to say a good word for the author.—Mr. Lowell has been long known in this community, and in the eastern part of the State. Whatever may be thought of his peculiarities, he has many estimable traits of character, and has earnestly and sincerely endeavored to benefit his fellow men. He is now, at an advanced age, suffering under bodily infirmities, and in a condition of pecuniary want, occasioned by misfortune and losses in his business, which we trust will induce his friends and acquaintances to extend to him a helping hand as they may have ability. Even the sale of his little pamphlet, for such sums as his friends may feel free to give, will afford a welcome relief. It may be procured at the bookstore of Mr. O. R. Patch in this city; and we hope all who may see this notice will do as much for Mr. Lowell as to purchase one or more copies.—The disbursement of a quarter in this way will help him, and afford amusement to the reader—and will also give currency to some good ideas, and many rich paragraphs.

A SPICY JOKE.—The following from the Waterville Mail smacks of spice:

Petitions, praying for the enforcement of rail road connection at Kendall's Hill's, have been presented and referred. A wag inquires if the passage of an "enabling act," which operating as a dose of "ketch-up" on the lower train, would not effect the object.

"GILT-EDGED PAPER."—The commissioners of the sinking fund of the Worcester Railroad, in Massachusetts, invested $50,000 of the fund in two notes, signed by Samuel Lawrence, Treasurer, and endorsed by Lawrence, Stone & Co., for $25,000 each. It is said to be doubtful if the commissioners realize fifty per cent. on these two notes.

No less than five loving wives have come forward and claimed the bigamist, Coombs, who is now in Suffolk jail. He deserves to be caged with them all at once.—*Bath Times.*

LOCAL AND MAINE NEWS.

☞ See First Page for Miscellaneous reading.

The fire yesterday afternoon was at the house of Daniel Gallagher, below the Dwinel House. It took in the attic from some defect in the chimney. The department was promptly on hand, and soon extinguished the fire.—The house was not much damaged.

There appears to have been some fire remaining, however, for a second alarm was given at 7 o'clock, and the engines again called out. This time the chambers and upper part of the house and roof were badly damaged. Loss probably $100 to $150. We hear that the house was insured.

The fire at the Seminary building on Thursday took in one of the student's rooms, from the fire in a fireplace, and burned the carpet and floor to some extent.

The Annual Examinations of our public Schools commence on Monday next (15th) and close on the 3d of March. For particulars see advertisement of the School Committee.

COLD WEATHER AT LAST.—Yesterday morning, (12th) had the bite of winter. The mercury fell to 12 and even to 20 degrees below zero, in different positions, and by different instruments.

The snow storm of last week extended along our sea-coast, giving the inhabitants of the shore towns their first touch of sleighing.—There is as much snow at Rockland as at Bangor—about three inches.

Supreme Judicial Court—Criminal Term.

Appleton J., presiding.

January 12.

The County Attorney proceeded to trial, in several cases, although the Grand Jury have not risen, and will probably not report till Saturday forenoon.

The following were disposed of:

State vs. James W. Brown. Larceny from brig Demerara, last fall. Verdict, Guilty.

J. H. Hilliard for State. Knowles for defence.

State vs. William Palmer, Robert Douglas and William H. Ingraham. Burglariously entering the store of Gibbs & Phillips, in December last, and stealing therefrom. Verdict, Guilty.

Hilliard for State. Knowles for Dfts.

State vs. James Bulger. Burglariously entering the house of P. P. Pearson, and stealing a coat therefrom. Case not concluded.

CONVICTION.—Among the indictments by the Grand Jury, reported on Thursday, was one against Amos *Hale*, of Exeter, for stealing. It was reported in our paper by mistake "Amos Hale." Mr. Hale is a worthy and respectable citizen, who never stood in danger of any indictment.

POLICE COURT.—*Feb. 8th.* Alonzo Gulliffer for an assault and battery was fined $5, and cost. In default of payment he was committed to jail.

Feb. 10th. John Hanscomb—common drunkard—was sent to the House of Correction for 30 days.

Feb. 12th. Jacob Bagley, for the same offence, was dealt with in the same manner.

FIRE AT ELLSWORTH. We learn that the house barn and shed belonging to Mr. Ivory Joy of Ellsworth, were destroyed by fire on Tuesday last, together with part of his furniture. Loss about $1500. Insurance at the Penobscot Mutual for $1100.

FIRE IN EASTPORT. The "Richardson" building, occupied by G. W. Sabine, bookseller, and A. R. Sanford, clothing dealer, and also a building occupied by Mrs. Atkinson, as a boarding house, were burned on Friday evening. But for the extra exertions of the fire department, the business portion of the town would have been destroyed. The losses are not stated by the Sentinel. Mr. Sanford had an insurance of $900 on his stock.

FIRE IN VASSALBORO'. The extensive saw mills of the Vassalboro' Company, at Seven Mile Brook, were burned on the night of the 4th. Loss about $8000—partially insured.

The Washingtonians of Bath are holding frequent meetings.

BABSON IN FAVOR.—The Bath Organ says that there is a current report that Hon. John Babson has received an appointment in connection with the Custom House inspection on the northern frontier, worth some $3,000 per annum.

THE AROOSTOOK RAILROAD.—In a recent article upon this subject, the Pioneer says:

We have heard it remarked that it would be impossible to turn the trade of Eastern Aroostook to Bangor, now that the St. Andrews road is nearly completed. It is safe to say that those who think thus, have never visited our County, and therefore cannot know from observation that such is not the fact. A railroad from Bangor is what our people desire—it is what the people of the State desire, and should it be built, would command almost the entire trade of the Aroostook and upper St. John. But we were speaking of the *Survey*, and to the whole State, of making an early survey of the route from the Penobscot to the valley of the Aroostook. It is ordered to be done during the ensuing Summer, it will be saying to the world that we intend to have our public domain settled and improved, and if this be done, we confidently predict that in early spring we shall witness an unprecedented tide of emigration to our noble County—vastly more than enough to convince the most skeptical of the absolute necessity which exists for a railroad to connect us with the world *outside*—full enough to convince them that the expense of the survey is a judicious and wise expenditure.

MASONIC.—The officers of Waterville Lodge of Free Masons will be publicly installed on Tuesday evening next, by Hon. B. P. Dunlap, Grand Master of the Grand Lodge of Maine. There will also be an address by Rev. H. C. Leonard of Waterville. The services will be performed at the Congregational Church, and the public are invited to attend.

MISSING VESSEL.—The schooner Mayser, of this port, sailed from Baltimore Oct. 27th for Antigua, and had not arrived Jan. 7th being then out 71 days. She was 149 tons register, about six years old. No insurance on the vessel or freight. She was owned by Axel Hayfird and others. The crew were Robert H. Hewes, master, of Rockland, where he leaves a family; Eldridge Thomas, mate, of Rockland; John Winder, steward, of do; John B. Davis of do; John B. Lindsay, of do; and Henry Edwards, of Machias, seamen.—*Belfast Free Press.*

A bear was set upon by several men, recently, in Dixfield. Wounded and bleeding he was chased to the Androscoggin, where he was set upon by dogs. He took to the river but was captured just as he gained the opposite bank, near Peterson's Ripe.

Report upon the Subject of Imprisonment for Debt.

The following is the Report recently made by the Committee on the Judiciary, upon a bill referred to them, entitled "An Act to abolish imprisonment for debt"—which report was accepted. Its positions we regard as substantially just.

The bill is erroneously named, for it does not propose to abolish imprisonment for *all* debts, but only for those debts founded on *contract*, leaving the law, as it now is, in all cases of trespass or other action founded on any *wrong* done by the party sued.

Imprisonment for debts founded on contract, as against all honest debtors, was substantially abolished in this State more than twenty years ago; the only imprisonment which has been allowed since that time, being designed to compel a dishonest debtor, who by abusing the confidence of honest creditors, has got their property into his hands, to turn it out to them.

It is no doubt true that those provisions of the law which are required to force fraudulent debtors to disclose and deliver up their property, being necessarily general, often occasion some inconvenience to honest debtors.

This is one of the misfortunes of being in debt, and is unavoidable; but the present law carefully guards the honest debtor against such inconveniences as far as practicable, without opening the door for dishonest debtors to escape altogether.

It does not permit any person to be arrested on any writ founded on contract except when he is about to depart and reside beyond the limits of the State, taking with him property or means beyond the amount required for his own immediate support; and then he has only to go before two Justices and disclose the state of his business affairs, and turn out what property he has which is not exempt from attachment, and he can go free; or if he prefers not to disclose then, he can give a bond to disclose after judgement.

Any person who is sued, whether the suit be founded on contract or other cause of action, except wilful trespass, can make such disclosure before judgment, and then the execution cannot run against his body, but only against his property. Such disclosure can also be made at any time by consent of parties.

If the debtor has neglected to disclose before judgment, when the officer calls upon him with the execution, he can go before two Justices and disclose without giving any bond; or he can give a bond to disclose in six months, as may best suit his own convenience, or his own objects. If in disclosing on said bond any error occurs by which the bond is technically forfeited, the creditor can only recover the actual damage, which he suffers from such error. It will be perceived from these provisions, that the law, in its great anxiety to accommodate the honest debtor, gives so much times to disclose, that the dishonest one has great opportunity to dispose of, cover up, or use up his property, or change its form, from that which is attachable or difficult to conceal, to that which is exempt from attachment or easily concealed, and thus to leave his creditor without remedy. The creditor is obliged to support the debtor, while in jail, if he make oath that he is not able to support himself.

The fees which the debtor must pay to the Justices on disclosure are low, and *his* convenience and not that of the creditor, is everywhere consulted. It has been said that under this law the imprisonment of a woman is possible, and has actually occurred two or three times during the period of nearly forty years since the Province of Maine was erected into a State. If it has not happened much oftener than that, the fact is highly creditable, both to the forbearance of creditors and the integrity of women.

It is no doubt proper, and desirable that women should engage in all honorable pursuits to which they are adapted; but when they engage in business, they must, of course, be subject to the necessary laws of business; and no true woman, and no judicious friend of woman will complain that they are expected and required to be as honest as men. If under the present law any person, man or woman, is imprisoned, it must be from a wish to conceal property which the creditor ought to have; or from an obstinacy, which is not commendable in either sex, or from an ignorance of the law, which can be easily remedied by consulting friends or counsel.

No doubt a creditor may sometimes compel a debtor to disclose, who is really honest and without property; but these mistakes are never the fault of the law, and often not the fault of the creditor, but arise from a want of that knowledge which the disclosure is designed to give.

The present law is believed to provide fully for all the demands of true humanity, while it does not entirely overlook the claims of justice.

Orations and declamations against imprisonment for debt are no doubt just and proper, as criticisms on past history, but it is not perceived that they have any application to our present law.

For these reasons, your committee respectfully submit their opinion that the bill ought not to pass.

HENRY B. PRENTISS, *per order.*

LEGISLATURE OF MAINE.

WEDNESDAY, Feb. 10.

SENATE. Petition of W. B. Weed and 196 others, and of O. K. Lane and 294 other ladies, of Deer Isle, for a prohibitory Liquor Law. Referred.

Legislation inexpedient on an order relative to amending Revised Statutes, so as to make the support of all insane paupers chargeable to the State.

Mr. Strinchfield presented the petition of Henry T. Knowles and others, for a railroad from Milford to Aroostook.

HOUSE. The question pending when the House adjourned yesterday, was on reconsidering the vote passing the bill relative to the inspection of of beef and pork to be enacted.

Mr. Johnson thought that the bill was not thorough enough. He thought there was a general desire to have this matter investigated, and for this purpose he would move to lay on the table.

Mr. Kingsbury, of Kennebunk, said that, as far as his experience went, it was for the interest of those who packed beef for ships ores to supply good beef and pork. And their reputation would suffer unless they sent the best stores they could.

Mr. Buck, of Oldtown, spoke in favor of the reconsideration.

Mr. Johnson's motion then prevailed.

The act was afterward taken up, the House reconsidered the vote passing it to be enacted, then the vote passing it to be engrossed, and it was recommitted to the Judiciary Committee.

Presented and referred—Petition of Eunice T. Barker and 58 other ladies for a liquor law; of Mark H. Dunnell and 42 others, for an insolvent law; of the President and Directors of the Gardiner Bank for reduction of capital stock; of inhabitants of Falmouth that persons residing in any town in the State one year shall gain a residence in the town.

IMPORTANT FROM MEXICO—A PROVISIONAL GOVERNMENT ORGANIZED.—*New Orleans, Feb. 10.* The Tennessee brings Vera Cruz dates of the 5th. On the morning of the 21st. Comonfort, abandoned by his troops, left the city of Mexico, when the Pronunciados entered the Palace.

The Notables elected Zuloaga as Provisional President. Puebla, Toluca, and, other points within a radius of the city, have acknowledged the government, which has been organized and nominated its ministers. They, however, up to the 7th, had not a single port, and were depending upon the clergy for support.

Juarez, as President of the Supreme Court, is President of the Republic under the constitution, and has called Congress together at Guanapanito, the great point of union of the Liberals.

The castle of Perote was in the hands of the Liberals.

OBITUARY NOTICES.—The Eastern Argus now charges from 6 to 12 cents a line for inserting obituary notices in their paper. We see no good reason why printers generally should not have their pay for inserting such notices. There may be exceptions. It is frequently the case that from half to three-fourths of a column is handed into papers for insertion—and if the printer does not see fit to publish so much, he is thought to have no sympathy for them.—*Piscataquis Observer.*

THE FUNERAL OF BISHOP WAUGH.—*Baltimore, Feb. 10.* The funeral of Bishop Waugh, of the Methodist Church, took place this afternoon. The services were performed at the Light street church, where an immense throng assembled. The funeral services were performed by Bishop Janes.

Bishop Waugh was the senior Bishop of the Methodist Church in the United States.

Poe's Song of the Bells.

I.

Hear the sledges with the bells—
Silver bells!
What a world of merriment their melody foretells!
How they tinkle, tinkle, tinkle,
In the icy air of night!
While the stars that oversprinkle
All the heavens seem to twinkle
With a crystalline delight;
Keeping time, time, time,
In a sort of Runic rhyme,
To the tintinnabulation that so musically wells
From the bells, bells, bells, bells,
Bells, bells, bells—
From the jingling and the tinkling of the bells.

II.

Hear the mellow wedding bells,
Golden bells!
What a world of happiness their harmony foretells!
Through the balmy air of night
How they ring out their delight!
From the molten-golden notes,
And all in tune,
What a liquid ditty floats
To the turtle-dove that listens, while she gloats
On the moon!
Oh from out the sounding cells,
What a gush of euphony voluminously wells!
How it swells!
How it dwells
On the Future! how it tells
Of the rapture that impels
To the swinging and the ringing
Of the bells, bells, bells,
Of the bells, bells, bells, bells,
Bells, bells, bells—
To the rhyming and the chiming of the bells!

III.

Hear the loud alarum bells—
Brazen bells!
What a tale of terror now, their turbulency tells!
In the startled ear of night
How they scream out their affright!
Too much horrified to speak,
They can only shriek, shriek,
Out of tune,
In a clamorous appealing to the mercy of the fire,
In a mad expostulation with the deaf and frantic fire
Leaping higher, higher, higher,
With a desperate desire,
And a resolute endeavor
Now—now to sit or never,
By the side of the pale-faced moon.
Oh, the bells, bells, bells!
What a tale their terror tells
Of Despair!
How they clang, and clash, and roar!
What a horror they outpour
On the bosom of the palpitating air!
Yet the ear it fully knows,
By the twanging,
And the clanging,
How the danger ebbs and flows;
Yet the ear distinctly tells,
In the jangling,
And the wrangling,
How the danger sinks and swells,
By the sinking or the swelling in the anger of the bells—
Of the bells—
Of the bells, bells, bells, bells,
Bells, bells, bells—
In the clamor and the clangor of the bells!

IV.

Hear the tolling of the bells—
Iron bells!
What a world of solemn thought their monody compels!
In the silence of the night,
How we shiver with affright
At the melancholy menace of their tone!
For every sound that floats
From the rust within their throats
Is a groan.
And the people—ah, the people—
They that dwell up in the steeple,
All alone,
And who tolling, tolling, tolling,
In that muffled monotone,
Feel a glory in so rolling
On the human heart a stone—
They are neither man nor woman—
They are neither brute nor human—
They are Ghouls:
And their king it is who tolls;
And he rolls, rolls, rolls,
Rolls
A pean from the bells!
And his merry bosom swells
With the pean of the bells!
And he dances, and he yells;
Keeping time, time, time,
In a sort of Runic rhyme,
To the throbbing of the bells—
Of the bells, bells, bells—
To the sobbing of the bells;
Keeping time, time, time,
As she knells, knells, knells,
In a happy Runic rhyme,
To the rolling of the bells—
Of the bells, bells, bells,
To the tolling of the bells,
Of the bells, bells, bells, bells—
Bells, bells, bells—
To the moaning and the groaning of the bells.

To the Honorable Senate and House of Representatives of the State of Maine, in Legislature assembled.

THE undersigned, Isaac M. Bragg, of Bangor in the County of Penobscot, respectfully represents, that for the purpose of making navigable the East Branch of the Mattawamkeag River, so that logs may be driven down the same, he and his associates have erected, at great expense, a cam across said river, near the North line of and upon township number Four in the Third range, West from the East line of the State, in the County of Aroostook,—He therefore prays that an Act of incorporation may be granted him and his associates, for the purpose of maintaining, repairing and rebuilding said dam, with power to exact and collect tolls on all such logs as may pass by said dam in said river, with such other rights and under such restrictions to ensure the object of said dam, as to the Legislature may seem proper. ISAAC M. BRAGG.

Nov. 14th, 1857.

STATE OF MAINE.

In House of Representatives, Jan. 22, 1858.

On the Petition aforesaid, *Ordered*—That the Petitioner cause an attested copy of Petition with this order thereon, to be published in the Whig and Courier, a paper published in Bangor, on or before the fifteenth day of February next, that all persons interested may then appear and show cause, (if any they have), why the prayer of said petition should not be granted.

Read and accepted. Sent up for concurrence.

GEORGE W. WILCOX, Clerk.

In Senate Jan. 25, 1858.

Read and concurred.

TO THE DAILY WHIG AND COURIER

Later from California.

ARRIVAL OF THE

EMPIRE CITY,

AT NEW ORLEANS.

NEW ORLEANS, Feb. 12.

The steamship Empire City, from New York 2d, via Havana 8th, is coming up the harbor.

She connected at Havana with the steamship Orizaba, from Aspinwall, and brings the California mails of the 20th ult.

The steamer Star of the West left Aspinwall on the 8d for New York with the mails, 250 passengers from California, and $1,325,000 in treasure.

The Granada left Havana for Aspinwall, on her return voyage, on the 9th.

Advices from Key West state that the United States steam frigate Wabash was to leave for New York on the 10th.

The clipper ships Frigate Bird from Philadelphia, and Golden Rule from Boston, had arrived at San Francisco.

CONGRESSIONAL.

WASHINGTON, Feb. 12.

Senate not in session.

House.—The Sergeant-at-Arms having reported that he had, in obedience to the order of the House, arrested John W. Walcott, he was required to bring him before the bar.

The Speaker, in pursuance of the resolution adopted yesterday, asked him what excuse he had for not answering the question propounded him by the Select Committee, and whether he was now prepared to answer that and all other questions.

The witness was sworn by the Speaker as to the truth of his written reply, which is to the effect that he was here in obedience to the order of the House to answer for an alleged contempt committed by him.

He assured the House that, in all sincerity, he did not design, nor suppose he was guilty of such an offence. He respectfully asked till Monday to purge himself from the charge of contempt, and fully justify his conduct. He wished again to consult his counsel.

Mr. Stanton moved that the indulgence be granted, and that he be remanded to the custody of the Sergeant at Arms, and have the benefit of counsel. Adopted.

Mr. Boyce from the Committee on Elections made a report in the case of Mr. Brooks, who contested the seat of Mr. Davis of Maryland. The Committee offer a resolution, that it is inexpedient to grant the prayer of Brooks for a committee to take testimony.

Mr. Phillips made a minority report, stigmatizing the election proceedings in Baltimore as a gross insult to the institutions of the land, concluding with a resolution, that the Committee to examine into all the evidence, with power to send for persons and papers. The further consideration of the subject was postponed till Monday.

Mr. Hoard of N. Y. said that rumors were afloat involving the rights and dignity of the House, and asked leave to offer a resolution for the appointment of a committee to investigate whether attempts have been made by per one connected with the executive department, or persons acting under their advice, to influence the action of the House directly or indirectly by promise or intimidation, or the giving or withholding of patronage, &c.

Mr. Warren of Ark. objected to the reception of the resolution. If Mr. Hoard would put his finger on the person so offending, he would vote with him, but he could not do so on such sweeping, indefinite charges.

Mr. Houston of Ala. said, if the gentleman would state, on his own responsibility, that improper influence had been used, that would afford a tangible ground for an investigation, but not scurrilous articles from the newspapers.

Mr. Hoard read from the Richmond South an article which said that the President had declared that "he would put the Lecompton Constitution through in 30 days or burst!" as the list of desirable votes could be procured by means of Executive appointments, but it would require nice engineering.

Mr. Millson of Va read from Jefferson's Manual to show that Mr Hoard himself had committed a breach of privilege.

Mr Warren of Ark. said the Speaker must see that this was not a question of privilege.

The Speaker thought the mover did present such a question.

Mr Hoard read from the Tribune correspondence of Thursday, as follows:

I learn that until Monday morning it was expected Mr. Buchanan's Ohio would vote against the Lecompton. On the morning of that day, however, he came to another conception of his duty, on the understanding with the President that his son-in-law should retain the valuable place of Postmaster at Keokuk, Iowa, and that he himself should be gratified with the office of Marshal of the Northern District of Ohio, when his present term in the House is completed.

Mr H. read from the constitution, showing that the President's power with Congress only extends to matters of legislation; and from Washington's Farewell Address, against trespassing on the rights of the National Legislature; saying that these newspaper statements founded a basis of action for the House.

Mr Warren of Ark. said if Mr Hoard insinuated that men on the Democratic side were influenced by cowardice, or by hope or fear he was very much mistaken. Neither the Recess nor other reasons could influence them. He was on the track of a distinguished reporter, and if he could find him he would expel him. If gentlemen wanted to attack democracy, they would be met, but they do not want a stab under the ribs.

Mr Burns of Ohio pronounced the statement in the Tribune an unqualified falsehood.

Mr Stephens of Ga. remarked that the manner of Mr Hoard is founded on a vague rumor. It was time, and past time, to end such proceedings.

Mr Washburn of Me. accused Mr Stephens of an attempt to strangle investigation.

Mr Giddings of Ohio was sorry to see unnecessary excitement. It became statesmen, representing a free people, to purge themselves of corruption. He referred to the fact that the Democrats once expelled a reporter of the Tribune for stating that their colleague, Mr. Sawyer, ate sausages.

The House by a vote of 108 against 83 decided that Mr. Hoard's resolution was not a question of privilege.

Adjourned till Monday.

NEW YORK, 12th.

The anti-Lecompton meeting, advertised for the Academy of Music to-night, was not held, the lessees of the building persisting in their refusal of its use. A large crowd collected in front of the building, and considerable indignation was manifested, some parties even threatening to break in the doors. The majority, however, were peaceably inclined. Mr. Stanton was called for, and made a few remarks, stating that his voice would not allow him to address them in the open air, but that if a hall could be procured, he would be happy to give his sentiments. A large number of persons with a band of music followed Mr. Stanton to the N. Y. Hotel, where he was again called out, and made a few remarks.

PHILADELPHIA, Feb. 12.

A sham duel took place this afternoon on the west side of the Schuylkill, between two young men named De Charmont and Sheridan. The balls were drawn from the pistols before they were handed to the combatants, a fact of which Sheridan was aware. As the pistols were fired Sheridan fell, and De Charmont, fearing the consequences, fled to parts unknown. In a letter he left at home, he stated that if he killed his antagonist he would leave for Europe immediately.

DAVIS' PAIN KILLER.—I was attacked with dysentery, and it soon became very distressing; I used this medicine according to the directions, and was cured in three days. My wife was also attacked with pain in the stomach, in consequence of eating too soon after a fit of sickness; she was relieved in a few minutes after taking this medicine. To use her own words, she said she felt the pain remove after she had taken it as quick as you could see a lump of sugar dissolve in cold water. My son was burnt so badly the skin was off. I applied the medicine immediately, and it took out the fire and healed the wound in less time than I ever saw one healed before.—One of my children fell over a chair and bruised its head very bad, but the bruise was soon dispersed by bathing it with medicine. I will mention one case more of its wonderful effect in curing a wound inflicted by my son's falling out of doors and cutting himself badly; the pain was soon relieved, and the wound healed by this medicine. In fact it is the best family medicine I ever used for the cure of colds, coughs, and a number of other complaints incident to the human family.

A New and Valuable Discovery!

TIME AND MONEY SAVED.

The Washer Woman's Friend and Helper!!

HALGATE'S CELEBRATED

LAUNDRESS' SECRET!

The Quickest, Cheapest, Easiest and Pleasantest mode of Cleansing Clothes yet discovered. No Boiling, Pounding, or Rubbing required, but all performed in simple Warm Water.

THE "LAUNDRESS' SECRET" has been thoroughly tested by the most experienced Laundresses, and has not failed in a single instance to give entire satisfaction. Its tendency is to loosen the adhesive quality of the dirt without injury to the fabric. It gives the garments a beautiful white appearance, and clothes that generally fade when washed by the ordinary soaps, compounds, etc; by this process, are warranted to remain firm; the color is not changed in the least; the wear and tear of clothing that must necessarily attend washings of the old process, is entirely removed, and not one-fourth the labor is required to do the washing of the family. Unlike the ordinary process, the washing is performed in simple warm water, and any kind of fabric can be washed with perfect safety. The washing that now takes half a day to perform, by our process can be done in one hour.

Don't be without it a Single Day.

Will you go on with the old process, doing your washing in half a day, scrubbing and rubbing at the wash-board, while the means of cleansing your clothes much cheaper, quicker and easier, is at hand? Believing a "hint to the wise is sufficient," and leaving the appearance of your clothing "a matter of choice," in your own hands, we respectfully solicit a fair trial of our preparation.

This preparation has recently been used by some 70 families in the towns of Oldtown and Orono, who certify that it is a worthy preparation;—that the *boiling is entirely dispensed with and one half the rubbing*, and they cordially recommend it to families and laundresses.

For sale by N. S. HARLOW, Druggist, No. 4 Smith's Block, Bangor, Me., who will supply traders on liberal terms.

Price, 30 Cents a Bottle.

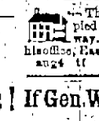
FLOUR, Wheat Meal & Shorts.



The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleaned before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour, of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels; as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers at *three dollars extra expense*. This is the *only* Line making entire Through Tickets, including meals, on the Isthmus.

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city,

American & Foreign Patents.

R. H. EDDY,
Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837.)

76 State Street, opposite Hilby-st.,
BOSTON.

AFTER an extensive practice of upwards of twenty years continues to procure Patents in the United States; also in Great Britain, France, and other foreign countries, Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claim of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but those who it invites have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The testimonials below given prove that now is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides an extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, on any question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as the Editor of patent papers. There were few, if any, who did as much business before the Patent Office, and there were none who conducted it with more skill, ability and success. I rated Mr. Eddy as one of the best in the United States, and have no hesitation in assuring inventors that they may confidently employ a person more competent and trustworthy, and more capable of getting their applications secured at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

(From the present Commissioner.)

"August 17, 1853.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a solicitor. His attorneyship is acquainted with the law, and the rules and practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY.

THIS ARTICLE, THAT REBUILDS BODY needs no eulogy to the sick, for the *Liver* is second only to the heart in our human economy, and when that is deranged the whole vital machinery runs wrong. To find a medicine peculiarly adapted to this disease has been the study of one of the proprietors, in large and extended practice for the past twenty years, and the result of his experiment is the Invigorator, as a never-failing remedy where medicine has any power to help. As a Liver Remedy it has no equal, as all testify who use it.

"A lady, writing from Brooklyn, says, 'Would that I could express in this short letter the value your Invigorator has been to me in raising a large family of children, for it has never failed to relieve all affections of the stomach, bowels, or attacks of worms. If mothers only knew of this remedy placed within their reach, and were taught how to use it, a fearful and untold amount of agony might be saved.'"

One of our prominent bankers says, "Five or six years since, I found myself running down with a liver difficulty, resorting to your Invigorator, was greatly relieved, and continuing for a season, was entirely restored."

A clergyman called at our office the other day and said he had given a poor woman a bottle, who was suffering very badly from Liver Complaint, and before she had taken the whole of it she was at work earning bread for her family.

"A gentleman, recently from the West, says, while at Chicago he was attacked with a slow, lingering fever, that baffled the skill of physicians, but the Invigorator cured him in a few days.

One of our city merchants said, while on a visit to Troy, a few days since, he was attacked with bowel and stomach disorders, so as to confine him to his room. He sent to the drug store for a bottle of Invigorator, took one dose, which relieved him so that he was able to attend his business.

An acquaintance, whose business compels him to write most of the time, says, he became so weak as to be unable at times to hold his pen, while at others sleep would overpower him, but the Invigorator cured him.

A gentleman from Brooklyn called on us a week or two since, looking but the shadow of a man, with skin yellow, pale and deathlike. He had been for a long time suffering from Jaundice and Dyspepsia, and unable to attend to his business. We saw him again to-day a changed man, and to use his expression, he has not seen the bottom of the first bottle, and further adds, "It saved my life, for I was fast going to a consumptive's grave."

Among the hundreds of Liver Remedies now offered to the public, there are none we can so fully recommend as Dr. Sanford's Invigorator, or Liver Remedy, so generally known throughout the Union. This preparation is truly a Liver Invigorator, producing the most happy results for all who use it. Almost innumerable certificates have been given of the great virtue of this medicine by those of the highest standing in society, and it is, without doubt, the best preparation now before the public.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is prevented. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858, said premiums to be distributed as follows—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $50; 7th, $50; 8th, $50; 9th, $50; 10th, $50; 11th, $40; 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858. Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents *extra* on each year's subscription to pre-pay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates.—Five Copies for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months $25.

For all Clubs of Twenty and over the yearly subscription is only $1 40.

The new volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 finely executed Engravings, and notices of American and European improvements, together with an Official List of American Patent Claims, published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid, fearless class in combatting, and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each cake.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering it as invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9, which saves $3; and in 27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases sent as usual, but not free of carriage.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

Blackwood's Magazine AND THE BRITISH REVIEWS.

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative.)
2. THE EDINBURGH REVIEW (Whig.)
3. THE NORTH BRITISH REVIEW (Free Church.)
4. THE WESTMINSTER REVIEW (Liberal.)
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)
6.

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics forms only one feature of their character. As organs of the most profound writers in Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of ADVANCE SHEETS from the British Publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

THIRD DIVISION.

$310,000 WORTH OF FARMS & Building Lots, in the Old Region of Culpepper County, Va., to be divided among 10,000 subscribers, on the 7th of December, 1857. Subscriptions only *ten dollars* down, or fifteen dollars, one half down, the rest on the delivery of the deed. Every subscriber will get a building Lot or a Farm, ranging in value from $10 to $25,000. These FARMS and LOTS are sold so cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 2350 lots are already sold, and a company of settlers is led to the *Hippahannock Pioneer Association*, is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises.

Nearly 40,000 acres of land, in different parts of Virginia, now at command, and will be sold to settlers at from $1 up to $800 per acre. *Unquestionable titles will in all cases be given.*

WOOD CUTTERS, COOPERS, FARMERS, &c., are wanted, and will find it to their advantage to settle on these lands.

500 Agents to obtain subscribers, to whom the most liberal inducements will be given. Bona fide Agents write that they are making $200 per month. For full particulars, specimens, circulars, &c., apply to E. BAUDER,

Burning Fluid and Oil

JOB LOT.

20 BBLS. BURNING FLUID.
10 Bbls. Winter Solar and Sperm Oil.
For sale by A. P. GUILD,
oct16 Exchange street.

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 29, 30, 31, and Oct. 1, 1856.

MILLER'S

CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow, Water, Heaves, Colts, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure, where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are specially cured by them. Also, colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Bots out of a Horse's stomach, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (Signed by)

Timothy Winn—Mr. Butler would say that Mr Winn is the proprietor of the Canada House and Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know Nothing, which was sold at $18,00 at four years old.

Erastus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Buny, which has been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 50 horses and colts, and makes great use of Miller's Condition Powders.

Wm. B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Flint—St. Johnsbury, Vt., dealer in horses.

Geo. A. Merrill, St. Johnsbury, Vt., Master of Transportation on Railroad.

H. A. Gandy—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

We, the undersigned, fully concur in the above recommendation of Miller's Condition Powders:

Charles Sayer, Livery Stable Keeper, Portland.
John A. Marr
Geo. Webster
O. C. Frost, owner of Hacks and Livery Stable Keeper, Portland.
Samuel A. Niles, owner of Hacks and Livery Stable Keeper, Auburn.
C. L. French, owner of line Stages, Auburn to North Turner.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Torrey's Patent Bee Hive* for the Counties of Penobscot, Lincoln and Saggadahoc, which has been rejected with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for Ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, Ellsworth, Maine, with the new hives.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoans, Spices, &c.

WHOLESALE AND ALSO IN SMALL PACKAGES

E. E. DYER & CO.,
(Sign of the Chinaman grinding Coffee.)
No. 8 Broad, near State Street,.....Boston.

Supply the best, finest and purest articles at the *lowest Cash prices.* Their Stock consists of Teas, Coffees, Chocolates, All spice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tartaric acid, or Prepared Dandelion, Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:

5lb. Souchong Tea,	$1,75	5lb. Mocha Coffee,	1,10
5lb. Oolong Tea,	1,50	5lb. Java Coffee,	1,00
5lb. Y. Hyson Tea,	1,50	5lb. good Coffee,	1,00

The Spices are put up in 1 and 2 lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of Consumers and dealers to our *Spanish Coffee*, a rare article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, *"Chinaman grinding coffee,"* may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. Its price is 20 cents per pound, and it is warranted to go the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

We would be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.

Ayer's Pills

Subjoined are the statements from some eminent men of this class, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Carterlett, of New Orleans.

"Your Pills are the prince of pills. I have tried their equal but never found their superior. They are so good, but very certain and effectual in their action, and so much better than any other pill, that they should take them in preference to any other pill of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your Pills admirably adapted to the purpose as an aperient, but I find in their use a decided advantage over other pills in the market. Indeed, they have in my practice proved more efficacious for the cure of liver complaints than any other remedy I can name. I am thus enabled to rejoice that we have at length a purgative pill in which we may place the confidence of the profession and the public."

DYSPEPSIA—INDIGESTION.

From Dr. Henry S. Ehrs, of St. Louis.

"The Pills you were kind enough to send me have been all used in my practice, and have so shaken the faith I had in truly an extraordinary medicine, so peculiarly are they adapted to the diseases of the human system, that I prefer them to work upon their alone. I have cured many cases of dyspepsia and indigestion with them, which had resisted all other remedies we commonly use. Indeed I have rarely met with a case in which they did not materially benefit them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY—DIARRHŒA—RELAX.

From Dr. J. D. Green, of Illinois.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the most efficacious and reliable aperients I have found. Their alterative effect upon the liver makes them an excellent remedy, when either a great deal of bilious dysentery and diarrhœa
